

Sideline **Féile**

● Made by a coach, for coaches

Go Games sorted before your dinner goes **cold**.

Féile was built because one coach lost an evening every fortnight to a Go Games spreadsheet. Snap a photo of the schedule and it's done in minutes — **fixtures, teams, and live scores**, sorted automatically.

**SOUND
FAMILIAR?**

Another blank spreadsheet.

Working out who plays
who, every single
fortnight.

"Who do we play next?"

Managers texting you all
afternoon for an answer.

Scores on a whiteboard.

Parents guessing, you
doing the maths by hand.

What Féile takes off your plate

From the county board's photo to the final whistle — built for the way Go Games and blitzes actually run.

Photo in, schedule out

Upload the county board's Go Games photo. Féile reads it, creates every team, and builds a fair fixture list — no re-typing club names every fortnight.

Minutes, not evenings

Enter your teams, pitches and time window. The AI hands you a ready-to-run schedule with rest breaks and no back-to-back clashes.

Live scores, no whiteboard

Enter results from your phone. Standings update instantly for every manager and parent watching — nobody has to ask you.

One link, zero questions

Share it in the club WhatsApp. Everyone sees their fixtures and kick-off times without a single message to you.

★ **Treoir**

Your AI co-organiser, built in

The bit no spreadsheet can do

Treoir knows your fixtures, scores and standings all day. Ask it anything — it doesn't just answer, it acts.

Team 4 didn't show up

I can mark a walkover for Clann Éireann, or reshuffle the group — which do you want?

What the app actually looks like — from the county board's photo to live scores on the day.

Upload the photo, get a fixture list

The county board's round schedule comes as a photo. Féile reads it, creates every club and team automatically, and builds a fair cross-club fixture list — nobody re-types a single name.

Clann Eireann	3	2	6
Éire Óg	3	1	3
Burt GAA	3	0	0

TREOIR — DAY-OF ASSISTANT

We're 20 minutes behind, what should we cut?

Trim the warm-up gap between rounds — that recovers 18 minutes without touching kick-off times.

Treoir handles the chaos too

Running behind? A team no-show? Treoir knows the live state of the day — fixtures, scores, standings — and can act on it, not just chat about it.
